

Alliance Claim Funding Announces Legal Funding Refinance Program

- Rates as low as 15% offered to Existing Loan Holders –

NEW YORK, March 23 /PRNewswire/ -- *Alliance Claim Funding LLC* (www.allianceclaimfunding.com), the New York based litigation finance company, announced today the launch of a new legal funding refinance program. The new program provides refinancing to existing lawsuit loans held by other companies at rates as low as 15% every six months.

In making the announcement, CEO Dimitri Mishiev said, "Our new refinance program offers attorneys and plaintiffs, who have previously taken a loan on their lawsuit at high rates, to refinance with us at a far lower rate." He continued, "This new program will save thousands of dollars for lawyers and plaintiffs, and put money back in the pockets of those who need it most, many who struggle to keep their cases alive."

Alliance Claim Funding, known for its comprehensive collection of high quality lawsuit loan services, will move swiftly to evaluate any case seeking to refinance at these lower rates.

Mishiev explained, "Our legal financing services fill a financial need the big banks like JPMorgan Chase Bank, Citibank, Bank of America, TD Bank and Wells Fargo, cannot and will not provide. Our firm steps in to provide much needed funding, at highly competitive rates," he said.

"The legal finance firm provides lawyers and plaintiffs the funding necessary to pursue their cases. We're pleased to add one more cost saving program to our full package of legal funding services," Mishiev said. "We've seen tremendous growth in three short years, as law firms and plaintiffs frequently turn to us for financing to solidify their cases." He continued, "Without this funding many attorneys and their clients are forced to settle cases too early."

Alliance Claim Funding has found success in the growing legal funding field. The company headquartered in Midtown Manhattan, partners with law firms to provide lawsuit loans to attorneys and plaintiffs pursuing personal injury, wrongful death, medical malpractice, and

products liability lawsuits. In addition, the company is consistently delivering exceptional, double-digit returns for investors.

An injured or damaged Plaintiff often does not have the resources to pursue their case, even when lawyers accept cases on a contingent-fee basis. The very nature of these cases usually affects the plaintiff's ability to earn a living, pay bills, and borrow more money.

Mishiev explained, "Plaintiff's often use these funds to prevent foreclosure of their homes, eviction from their apartments, or for medical expenses and living costs so that they may hold out longer for a higher settlement or verdict."

Company Profile:
